Vol. VIII, No. 8

August 1964

JULY UNIFORM PRICE \$3.85

Dairy farmers will receive a uniform price of \$3.85 for July 1964 deliveries of Grade A milk to handlers under the South Bend-LaPorte-Elkhart, Indiana, milk order. The uniform price is based upon a butterfat test of 3.5 percent, and will be adjusted by a differential of 7 cents for each one tenth percent that tests vary above or below the 3.5 percent standard. The minimum price is subject to a 4 cent per hundredweight marketing service deduction, together with the authorized hauling charge. This price is 23 cents higher than the June 1964 price and is 2 cents higher than the computed uniform price of a year ago.

PRODUCER RECEIPTS

Daily average production per farm decreased 61 pounds from June 1964, but is 102 pounds more than a year ago. However, there are 58 fewer producers on the market this year, and they produced 3.3 percent more milk. The average test of producer milk decreased from last year about .03 of a percent and about .02 of a percent from June 1964. Daily average production was over 7 percent less than that of June 1964.

CLASS I SALES

The daily average Class I sales are almost the same as a year ago and almost the same as June 1964. The average test of Class I products has decreased from a year ago, the average test for July 1963 being 3.54% and the average test for July 1964 being 3.47%. This is mainly due to an increase in the sale of skim milk products and 2 percent milk and a decrease in cream sales.

EXTENSION OF TIME GRANTED

The time for filing exceptions to the recommended decision issued May 26, 1964, has been extended to September 1, 1964. This is the third extension of time granted on this recommended decision.

CLASS I PRICE

The Class I price for the August 1964 delivery period will be \$4.36 per hundredweight for 3.5 percent milk. The price was computed by adding \$1.30 per hundredweight to the basic formula price (\$3.12), minus the 6 cent supply-demand adjustment. The supply-demand adjustment for the September 1964 delivery period will be a minus 6 cents.
